# COMPLIANCE CORNER

## YOUR FEBRUARY 2023 SAFETY NEWSLETTER

### COMPANY NEWS & UPDATES

#### UPDATED CONTACT DETAILS FOR H&S SUPPORT

When cold weather strikes, cranking up the thermostat is not always an option for workers. PPE is an important factor which all businesses should consider.

UNDERSTAND THE IMPORTANCE OF PPE

#### WOULD YOU NOTICE THE SAFETY RISKS?

Winter can sometimes bring the worst out in us especially whilst working in the cold. But its not just us who suffer from the elements. Machinery and buildings will begin to show there true colours in the winter months, but would you notice the safety risks?

CONSIDER A H&S GAP AUDIT

# PROSECUTION CENTRAL

## PROSECUTION 1

Employee suffers significant ill health following 12 years of inadequately controlled use of vibrating tools. The construction firm partners have been fined as a result.

[SEE THE FINE AND CONTROL MEASURES](#)

## PROSECUTION 2

Two companies and 2 individuals have been sentenced following the horrific fatality of an 18 year old at a house-build construction site.

[CHECK OUT THE FINE & SENTENCE](#)

## PROSECUTION 3

Worker falls six metres from roof whilst installing bird deterrent spikes. HSE found that the task was not part of the normal workload for employees of the company.
